GLOSSARY OF TERMS

Affected Persons (APs)

APs are all persons who are impacted due to the program implementation. The impacts may be due to (i) loss of assets: land, house and commercial structure; (ii) loss of livelihood and income opportunities; (iii) collective impacts such as community assets; and (iv) any unanticipated temporary disruptions resulting from construction works. APs may or may not be displaced.

Below Poverty Line (BPL) Households

BPL are households whose monthly income is less than a designated sum as determined by the Government of Jharkhand.

Poverty lines as defined by two different panels commissioned by Government of India:

As per the Planning Commission of India, the income limit for households for qualifying as a beneficiary under the BPL (below poverty line) list has been pegged at about Rs. 27,000 per annum. If a person earns less than this amount, he can get a Below Poverty Line Certificate issued to avail the different subsidies offered by the government using this service.

As per the 2011 revised poverty estimates of Tendulkar Methodology the poverty line in rural areas is Rs 816 and Rs 1,000 in urban areas.

As per C Rangarajan the national urban poverty line is Rs 972 per month and the national urban poverty line from Rs 1,000 per capita per month at 2011-12 In a major policy decision, the Jharkhand government has come out with a new benchmark to judge poverty. As per the new 13-point guidelines, finalized by the state Cabinet for conducting survey of the below poverty line (BPL) families, anyone whose monthly income does not exceed Rs 10,000 per month could qualify for being treated as the poor.

Compensation

This refers to the amount paid under the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (RFCTLARRA) Act 2013 for private property, structures and other assets acquired for the investment program. Compensation refers to payments made by the Government to those persons with legal title to their property.

Cut-off Date

The date of notification under Section 11 under the RFCTLARRA Act 2013 will be considered as the cut-off date for APs who have legal title to the land/property proposed for acquisition. In the case of Non-titleholders and unauthorized occupants the date of the census/socio-economic survey conducted by the Implementation Agency (IA) will be considered as the cut-off date for entitlements under the investment program.

In case of transmission line, the date of notification in the Gazette u/s 64 would be considered as the cut-off date.

Displaced Persons (DPs)

Any person who for reasons of (i) involuntary acquisition of land, or (ii) involuntary restrictions on land use or on access to legally designated parks and protected areas will suffer physical displacement (relocation, loss of residential land, or loss of shelter) and/or economically displaced (loss of land, assets, access to assets, income sources, or means of livelihoods) as a result of.

Non-titleholders

Persons who have extended their building, agricultural lands, business premises or work places into government lands /private lands or are entirely within the government /private land.

Market Value

This means the value of land in accordance with Section 26 of RFCTLARRA 2013.

It will be determined by the following:

- (i) The market value, if any, specified in the Indian Stamp Act, 1899 for the registration of sale deeds or agreements to sell, as the case may be, in the area, where the land is situated; or
- (ii) The average sale price for similar type of land situated in the nearest village or nearest vicinity area; or
- (iii) The consented amount of compensation as agreed upon, in case of acquisition of lands for private companies or for public private partnership projects.

Whichever is higher, will be taken and the date for determination of market value shall be the date on which the notification has been issued under Section 11 of the RFCTLARRA 2013.

Replacement Value

Replacement Value of the acquired assets and property is the amount required for the AP to replace/reconstruct the lost assets through purchase in the open market. The market value will be multiplied by a factor of, at least one to two times the market value for land acquired in rural areas and at least one times the market value for land acquired in urban areas.

The Jharkhand State Rules on LARR, 2015 specifies in section 31, sub-section (1) that compensation shall be calculated as the provisions laid down under section 26 to section 30 read with the First Schedule of the RFCTLARRA 2013 (market value x multiplier + 100% solatium)

Requisitioning Authority

This shall mean any company, a body corporate, an institution, or any other organization for whom land is to be acquired by the appropriate Government Agency, and includes the appropriate Government Agency if the acquisition of land is for such Government Agency either for its own use or for subsequent allotment of such land in public interest to a body corporate, institution, or any other organization or to any company under lease, license or through any other system of transfer of land to such company, as the case may be. Here it is JUSNL.

Resettlement Assistance

This refers to the support provided to persons displaced or affected by the project in the form of ex-gratia payments, loans, asset services, training and skills development, etc. in order to improve their standard of living and reduce the negative impacts of the investment program.

Resettlement Framework (RF)

RF is required for projects with subprojects or multiple components. The framework is in line with World Bank Operation Policy on Involuntary Resettlement and RFCTLARRA 2013 that provides appropriate and concrete commitment for future implementation of Resettlement Plan.

| | |
|--------------------------------------|--|
| <i>Resettlement Plan (RP)</i> | RP is a time-bound action plan with budget setting out compensation and resettlement strategies, objectives, entitlement, actions, responsibilities, monitoring and evaluation which are all aimed at helping APs re-establish their pre-project standards of living. |
| <i>Schedule Areas</i> | This means the such areas "as the President may by order declare to be Scheduled Areas" under Paragraph 6 of the Fifth Schedule Areas as per Schedule V of the Constitution of India |
| <i>Stakeholder</i> | Stakeholder is any and all individuals, groups, organizations, and institutions interested in and potentially affected by a project or having the ability to influence a project. |
| <i>Titleholders</i> | Those who have legal title to land, structure and other assets. |
| <i>Vulnerable Persons</i> | Those persons who are by virtue of gender, ethnicity, age, physical or mental disability, economic disadvantage, or social status may be more adversely affected by resettlement than others and who may be limited in their ability to claim or take advantage of resettlement assistance and related development benefits. This includes BPL, the elderly - above 60 years of age, female headed households, differentially able persons, Scheduled Castes and Scheduled Tribes. |

1. INTRODUCTION

1.1 Background

The Government of Jharkhand with active support of the Government of India has planned for implementing 24X7 Power for All (PfA) in Jharkhand. The program is aimed at achieving 24x7 reliable powers for all the households by FY 2019. The PfA roadmap includes interventions in generation, transmission, distribution, renewable energy and energy efficiency/ proposed to be implemented during FY16 to FY19. Government of Jharkhand through Jharkhand Urja Sancharan Nigam Limited (JUSNL) has planned to develop the transmission infrastructure in the State. This transmission infrastructure development is being funded from different sources e.g., domestic fund, Public Private Partnership (PPP) and multilateral funding. The Jharkhand Urja Sanchar Nigam Limited (the state-run power transmission utility company) has approached the World Bank for assistance to fund a part of the transmission infrastructure under the Jharkhand Power System Improvement Project (JPSIP). The project covers the entire state of Jharkhand except for the districts served by the Damodar Valley Corporation i.e. Dhanbad and Hazaribagh. The proposed project implementation includes creation of 25 new 132/33 kV substations and associated 132 kV transmission lines of around 1800 kms.

JUSNL has intended to develop the projects in a sustainable manner. Towards this objective, an Environmental and Social Management Framework (ESMF) has been developed to lay out a mechanism for integrating environmental and social concerns into the planning, designing and implementation phase of JPSIP. A Resettlement Framework (RF) has also been prepared as a part of the ESMF document; it is a higher-level guidance provided in the situation if the project necessitates preparation of a Resettlement Action Plan (RAP) due to involuntary resettlement and land acquisition impacts due to project implementation the RF guides in preparation of the RAP.

1.2 Project Overview

As part of the JPSIP, JUSNL has planned for development of 25 new substations and associated transmission lines. Out of twenty-five (25) new substations, one (1) 132/33 kV substation (part of the Scheme AA of Phase II) is planned to be located in Chowka village in Chandil block of Saraikela Kharsawan district in Jharkhand. The proposed substation is located on Plot no. 209, 212 and 213 of the Ghatdulmi village, Chandil Block, Saraikela Kharsawan District. The total area for the proposed grid substation is approximately 7.43 acres, of which 7.16 acres of the private land is acquired and the remaining 0.27 acres is government land and has been allotted to JUSNL. **Figure 1.1** below depicts project location of proposed Chowka GSS site.

Figure 1.1 Project Location Map

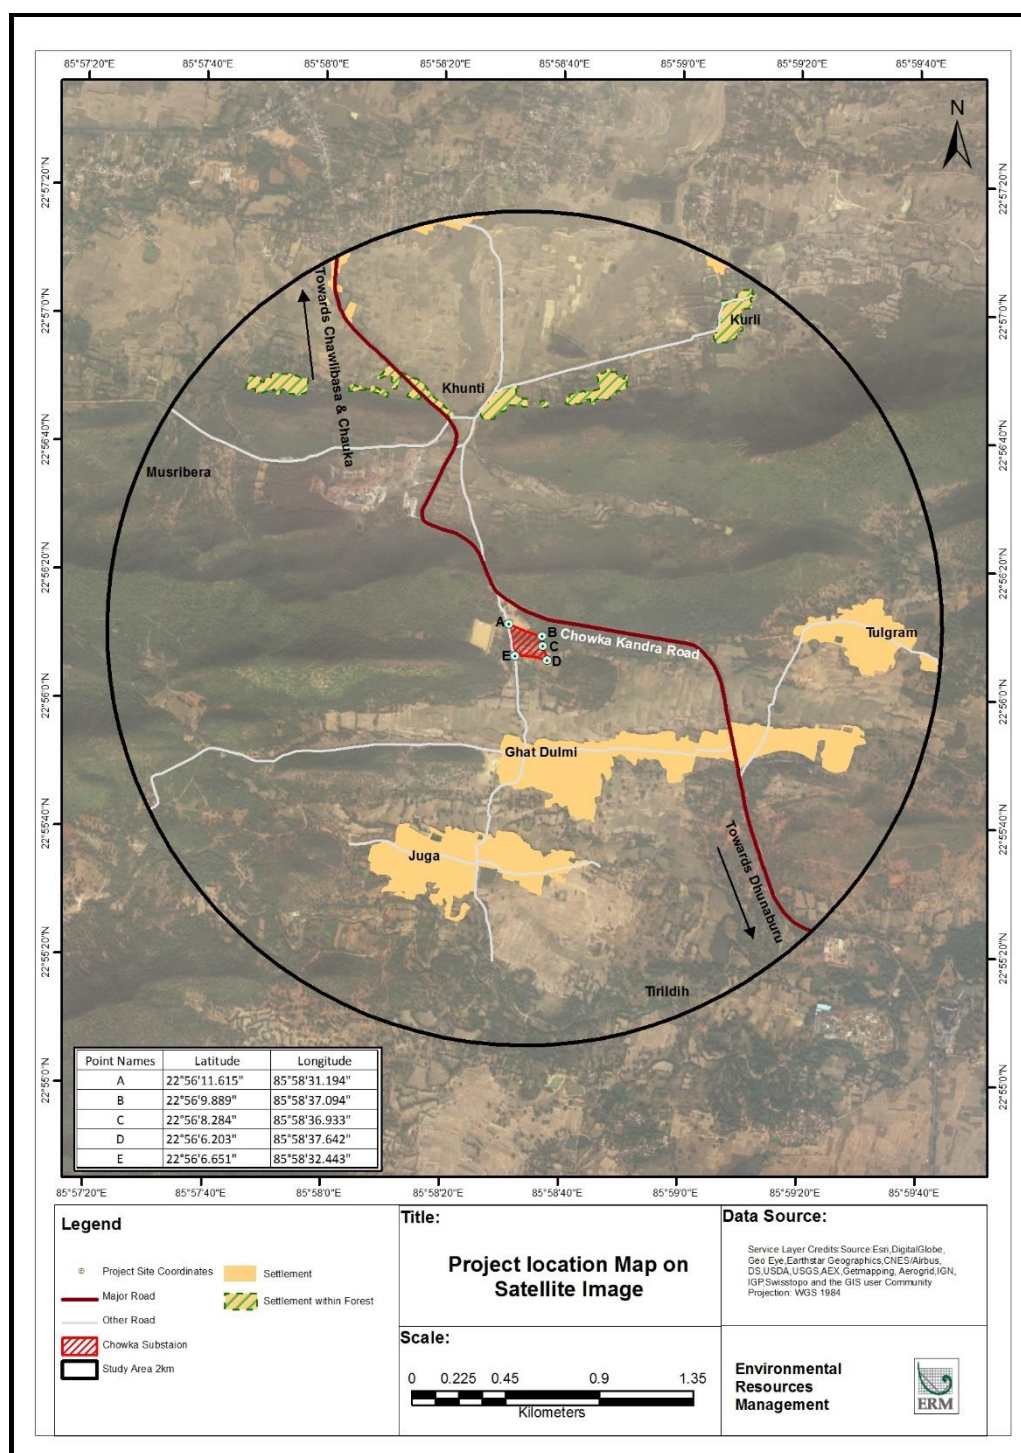

Table 1.1: Salient Features of the Project Location

| Sl. No | Item | Description |
|--------|---|-------------------------|
| 1. | Plot No. | 209, 210, 211, 212, 213 |
| 2. | Land Area Allotted for JPSIP GSS | 7.43 acres |
| 3. | Total Land Area (Govt. Land) under the Plot | 0.27 acre |

| Sl. No | Item | Description |
|--------|--------------------------------|--|
| 4 | Total Land Area (Private Land) | 7.16 acre |
| 5 | Type of Land | The current land cover of the site is scrub land and no agriculture land exist within the proposed site. |
| 6. | Ownership | Both under Private and Government of Jharkhand ownership |

| 5. | 78 | 210 | 0.08 | Government Land |
| TOTAL | | | 7.43 | |

Source: Mouza map issued by Circle Inspector, Chandil

1.3 Need for Abbreviated Resettlement Action Plan (ARAP)

As per World Bank Operational Policy, in the event of major impacts (that is, if affected people will be physically displaced with more than 200 people are to be displaced), a full Resettlement Action Plan (RAP) would be prepared. Whereas for minor impacts (that is, if affected people are not physically displaced and less than 10% of their productive assets are lost or fewer than 200 people are to be displaced), an Abbreviated Resettlement Action Plan (ARAP) should be produced.

Referring to the SIA study report prepared by Sharda Agricultural Research and Development Agency in 2018, as directed by the District Collector of Saraikela Kharsawan, there are five landowners from which the land parcel is procured for the construction of the GSS. Besides a portion of the land measuring 0.12 acre falls under the revenue land/government land.

Thus, the Abbreviated Resettlement Action Plan is prepared based on national legislations and World Bank Operational Policy 4.12 for the 17 project affected persons and their corresponding households, necessary compensation for displacement is provided as per Resettlement Framework. **Figure 1.2** provides location of the proposed GSS site on Google Earth imagery.

Figure 1.2 Google Earth map showing the boundary of the Proposed GSS Site

1.4 RAP METHODOLOGY

The methodology adopted in preparing this abbreviated RAP is consistent with the requirements of Resettlement Framework prepared for JPSIP, which adheres to the National Laws, State Policies and World Bank Operation Policy 4.12.

1.4.1 Consultations

Consultations were carried out with the affected landowners to assess and map their socio-economic profile, magnitude of impact magnitude and their consent for acquisition of private land required for the project. Consultations were also held with community people residing adjacent to the proposed substation site to assess the extent of impact on common people. Moreover, consultation was carried out with the officials of Ghatdulmi Gram panchayat, and Land Acquisition Department to obtain detail information for the proposed project (refer **Appendix E**).

1.4.2 Joint Visit

The Consultants, Engineers of JUSNL and representatives from Chandil Block Revenue Department conducted joint site visits to the GSS location for identification of the 7.16 acres plot. The coordinates of the plot were ascertained, following which the affected land parcels that are being used by the PAPs were identified and measured.

1.4.3 Census and Socio-economic Survey

For preparation of the ARAP, a project specific census survey was carried out by ERM to identify the affected persons and to establish the profile of the affected persons. The survey was conducted using a structured questionnaire – it covered the family size, category, land ownership, education level, monthly family income, assets, etc. The findings of the census survey thus form the basis for the preparation of the ARAP. The socio-economic survey took place on 12th December 2018.

2. SCOPE OF PROJECT IMPACTS

The land requirement for the project will require both privately owned and government owned land parcels for the implementation of proposed Grid substation. The identified land parcel for the substation admeasures 7.43 acres, which comprises of 0.27 acre of Gair Majurwa (GM) land/ government land and 7.16 acres of Rayati Land (Private land). The proposed project will impact private land.

2.1 Private Land

The proposed substation will impact 7.16 acre of private land belongs to the primary land titleholders as (i) Late Dinu Sardar (ii) Mochi Ram Patar (iii) Gulab Patar; (iv) Late Suryan Singh Munda and (v) Late Harimohan Munda.

No cultivation is reported to be carried out in the affected land parcel and the APs were not dependent on the affected land parcel. **Table 2.1** describes the affected land details, affected titleholders and additional land availability after acquisition. A details matrix of the affected land holdings is given below.

Table 2.1: Land Details of the Tittle Holders

| Sl. No. | Name of Current land owner (as per land revenue records) | Immediate Descendant as inherited owner of the ancestral land parcel | Land Plot No. | Total Land Area for Acquisition for the proposed GSS site (in acres) | Additional land Available (in acres) |
|---------|--|--|---------------|--|--------------------------------------|
| 1 | Late Dinu Sardar, S/o Late Guru Charan Sardar | Shobha Singh Babu (S/o Late Dinu Sarder) Parvati Singh Babu (W/o Late Sheetal Singh Babu, S/o Late Dinu Sardar) Haricharan Babu (S/o Late Dinu Sarder) | 212 | 2.02 | Approx.3.981 |
| 2 | Mochiram Singh Patar S/o Late Budhu Patar | Not applicable as Mochiram Singh Patar is alive | 213 | 3.65 | Approx.8.35 |
| 3 | Gulab Singh Patar S/o Late Budhu Patar | Not applicable as Gulab Singh Patar is alive | | | |
| 4 | Late Suryan Singh Munda S/o Late Dhan Singh Munda | Guruwari Devi (W/o Late Bhootnath Singh, S/o Late Suryan Singh Munda) Kaushalya Singh (W/o Late Nandlal Singh Munda, S/o Late Suryan Singh Munda) Padmavati Devi (W/o Late Debnath Singh Munda, S/o Late Suryan Singh Munda) Hemanth Singh Munda | 209 | 1.49 | Approx. 10.485 |

| Sl. No. | Name of Current land owner (as per land revenue records) | Immediate Descendant as inherited owner of the ancestral land parcel | Land Plot No. | Total Land Area for Acquisition for the proposed GSS site (in acres) | Additional land Available (in acres) |

| | | Laxmi Devi | | | |
| | | (D/o Late Hari Mohan Singh Munda) | | | |
| | | Shreemati Singh | | | |
| | | (D/o Late Hari Mohan Singh Munda) | | | |

Source: ERM socio-economic survey

Review of the land record shows that among five (5) main titleholders, three (3) titleholders had passed away viz., (i) Late Dinu Sardar (ii) Late Susen Singh Munda and (iii) Late Hari Mohan Singh Munda. Therefore, as per inheritance rights, the next kin of the deceased person is the legal titleholders of the affected land parcel. In this case a total of seventeen (17) persons who are the immediate descendant

of the principal titleholders have been identified and considered as the project affected landowners/ persons (PAPs). **Table 2.2** shows details titleholders and their present descendants.

Table 2.2 Land Owner Details and the Current Descendant

| Sl. No. | Name of land owner as per land record | Descendent of the affected land parcel, considered as Project Affected Person |
|---------|--|--|
| 1. | Late Dinu Sadar (S/o Late Guru Charan Sardar) | <ol style="list-style-type: none"> Shobha Singh Babu (D/o Late Dinu Sardar) Parvati Singh Babu (W/o Late Sheetal Singh Babu, S/o Late Dinu Sardar) Haricharan Babu (S/o Late Dinu Sardar) |
| 2 | Late Suryan Singh Munda (S/o Late Dhan Singh Munda) | <ol style="list-style-type: none"> Guruwari Devi (W/o Late Bhootnath Singh Munda, S/o Late Suryan Singh Munda) Kaushala Singh (W/o Nandlal Singh Munda, S/o Late Suryan Singh Munda) Padmavati Devi (W/o Late Debnath Singh Munda, S/o Late Suryan Singh Munda) Hemanth Singh Munda (S/o Late Debnath Singh Munda, S/o Late Suryan Singh Munda) Purnima Devi (W/o Late Balaram Singh Munda, S/o Late Keshab Chandra Singh Munda, S/o Nandlal Singh Munda; S/o Late Suryan Singh Munda) Umapada Singh Munda (S/o Late Balaram Singh Munda, S/o Late Keshab Chandra Singh Munda, S/o Nandlal Singh Munda; S/o Late Suryan Singh Munda) Bhadumoni Devi (W/o Hariram Singh Munda, S/o Late Keshab Chandra Singh Munda; S/o Nandlal Singh Munda; S/o Late Suryan Singh Munda) Monu Bala Singh Munda (W/o Late Madhu Sudan Singh Munda, S/o Late Hariram Singh Munda; S/o Late Keshab Chandra Singh Munda; S/o Nandlal Singh Munda; S/o Late Suryan Singh Munda) |
| 3 | Late Hari Mohan Singh Munda (S/o Late Dhan Singh Munda) | <ol style="list-style-type: none"> Sundar Devi (D/o Late Hari Mohan Singh Munda) Shanti Devi (D/o Late Hari Mohan Singh Munda) Laxmi Devi (D/o Late Hari Mohan Singh Munda) Shreemati Singh (D/o Late Hari Mohan Singh Munda) |
| 4 | Muchi Ram Singh Patar (S/o Late Budhu Patar) | Not applicable |
| 5 | Gulab Singh Patar (S/o Late Budhu Patar) | Not applicable |

No existing encroachments within the concerned land parcel either in form of agricultural or residential uses was reported. Consultation with the descendant of the affected titleholders revealed that the affected landowners are not dependent on the land and they have additional land holdings (refer **Table 2.1** above) apart from the land acquired for the proposed project. The affected land is reported currently to be a scrub land and there is no agriculture being practiced for last 10 years.

2.2 Vulnerable Families

2.2.1 Impact on Vulnerable Groups

As per the socio-economic census survey conducted by ERM, there is seventeen (17) private land owners and families, who all are belongs to the Scheduled Tribe (ST) community. Hence, the ARAP have been developed with special provisions and safeguards for ST community. Summary of PAPs are presented in **Table 2.3**.

Table 2.3 Summary of Land and Resettlement Impacts including Vulnerable Group

| Sl. No. | Particular | Number |
|---------|---|--------|
| 1. | Total number of project affected landowners/ Persons (PAPs) (All are ST community members) | 17 |
| 2. | Total number of affected families | 17 |
| 32. | Total project affected population (All family members of the 17 project affected landowners/ PAPs) | 106 |

3. SOCIO-ECONOMIC PROFILE OF THE PROJECT AFFECTED POPULATION

The proposed Chowka GSS is located at Ghatdulmi village in Chandil block of Saraikela Kharsawan district, Jharkhand. Ghatdulmi village is part of the Dhunaburu Gram Panchayat. In order to obtain baseline information on the project- affected persons and ascertain the impact of the GSS construction, ERM conducted a socio- economic survey of the PAPs. The survey indicates that the proposed project will affect family/household members of 17 project affected landowners/ persons (PAPs), with a total population of 106 individuals. The socio- economic profile of the affected persons, along with photographs, are in **Appendix A**.

3.1 Demographic Details

The socio-economic profile of the family/household members of 17 PAPs identifies a total population of 106 individuals out of which 44 are male and 62 are female. The average size of the households is 6.23 which is reported to be the same as compared with Jharkhand state. Entire 100% of the households belong to Scheduled Tribe (ST) category. **Table 3.1** depict the demographic details of the project-affected population.

Table 3.1 Demographic details of Project Affected Population

| Village | Total Household | Total Population | Average Household Size | Male (%) | Female (%) | SC Population (%) | ST Family (%) | Literary Rate (%) |
|-----------|-----------------|------------------|------------------------|----------|------------|-------------------|---------------|-------------------|
| Ghatdulmi | 17 | 106 | 6.23 | 58 | 42 | - | 100 | 70 |

Source: ERM socio-economic survey

3.2 Education profile

As per the socio-economic survey conducted by ERM, the literacy rate of the project-affected population was reported to be 74.52% which is higher than to the Jharkhand state level literacy rate (66.4%). The educational scenario reveals that most of the project-affected population have completed primary and secondary education. **Table 3.2** shows that of which 6.60% (7 of 106) of the affected population are below 5 years. About 2.83% (3 of 106) are male children and 3.77% (4 of 86) are female children. About 18.86% (20 of 106) of the affected population are illiterate, of which 3.77% (4 of 106) are male and 15.09% (16 of 106) are female. About 20.75% (22 of 106) of the affected population have obtained primary education, of which 11.32% (12 of 106) are male and 9.43% (10 of 106) are female. About 48.11% (51 of 106) have completed secondary education, of which 28.30% (30 of 106) are male and 19.81% (21 of 106) are female and about 5.66% (6 of 106) of the project-affected population has obtained higher education including Bachelors in Technology, which of 100% (6 of 6) are male. None has acquired any vocational skills.

Table 3.2 Educational Profile of Project Affected Population

| Gender | Children below 5 years | illiterate | Primary | Secondary | Higher Education |
|--------|------------------------|------------|---------|-----------|------------------|
| Male | 3 | 4 | 12 | 30 | 6 |
| Female | 4 | 16 | 10 | 21 | 0 |

3.3 Occupational and Livelihood Profile

As per the survey conducted by ERM, out of the 106 affected population, 11 are engaged into agriculture of which 6 are females and 5 are males. Agriculture is the mainstay of the local economy of the study area. The socio-economic survey conducted by ERM team also reveal that agriculture is the primary occupation of the affected households. Out of the total project affected adult population, the working population includes different professions viz., agricultural farmers comprise of 10.37%, agricultural labourers comprise 6.60%, daily wage labours comprise 22.64%, business/trade comprises 2.83%, private service comprises 4.71% and government Service comprises 1.88%. House worker and unemployed comprises 17.92% of total working project-affected population and student or below 5 years children comprises 33.01% of total project-affected population. **Table 3.3** represent the occupational profile of the project-affected population.

Table 3.3 Occupational Profile of the Project Affected Population

| Agricultural Farmers | Agricultural labour | Daily Wage Labour | Business/ Trade | Private Service | Govt. Service | Unemployed | Student & below 5 years children |
|----------------------|---------------------|-------------------|-----------------|-----------------|---------------|------------|----------------------------------|
| 11 | 7 | 24 | 2 | 5 | 2 | 19 | 35 |

3.4 Income Profile

3.4.1.1 Income profile of the Project Affected Persons (PAPs)

As per the census survey conducted by ERM, about 17.64% (3 of 17) off the PAPs have monthly income Rs 1,000 per month, about 76.47% (13 of 17) of the PAPs have monthly income Rs 5,000 per month, about 5.88% (1 of 17) of the PAPs have monthly income Rs 28,667 per month. Analysis of the income profile of the PAPs have revealed that majority of them are earning a monthly income of INR 1000 per month, the reason being that majority of the project affected landowners/ PAPs are not engaged into any economic activities but are senior citizens and are receiving the social assistance (Old Age Pension Scheme) from the Government.

3.4.1.2 Income profile of the Project Affected Households

For analysing the income profile for the project affected population i.e., family/household members of the 17 PAPs involving respective households, the survey conducted by ERM has also examined the total monthly income of all the earning members of the affected population for determining the income profile. The survey conducted has revealed that about 58.82% (10 of 17 HHs) of the affected population have an average monthly income of INR 10,000, about 35.29% (6 of 17 HHs) of the affected households have the average monthly income range between INR 10,001 to 15,000, about 5.88% (1 of 17 HHs) were found to have an average monthly income range between 15,001 to 28,000.

3.5 Vulnerability

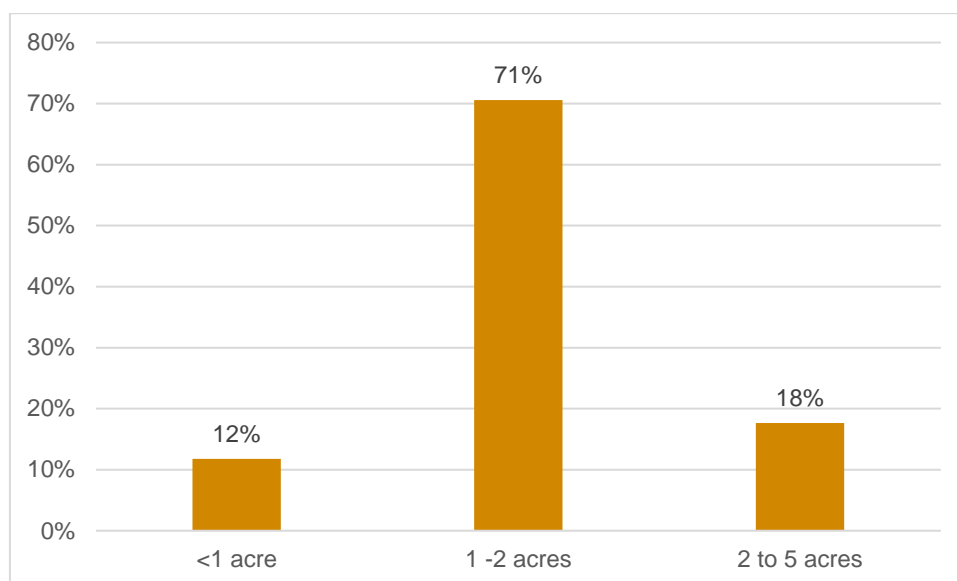

All affected families belong to Scheduled Tribe community and are considered to be vulnerable.

3.6 Land Holdings

As per the socio-economic survey conducted by ERM the average land holding size of the project affected landowners/ PAPs ranges from 0.79 acres to 4.18 acres. About 35% of the PAPs have landholding more than one acre, 50% of the PAPs owned land between 1 to 2 acres and only 15% owned land between 2 to 5 acres. Thus, based on the analysis it can be inferred that all the PAPs are

belongs to marginal farmer's category. **Figure 3.1** provides infographics on the landholding size of the project affected landowners/ PAPs.

Figure 3.1 Landholding Size of Project Affected Landowners/ PAPs

4. RESETTLEMENT POLICY & LEGAL FRAMEWORK

This section defines the laws and policies that govern the involuntary resettlement concerns caused for setting up of substation.

4.1 Applicable laws and Policies

- a. Right to Fair Compensation and Transparency in Land Acquisition, Resettlement and Rehabilitation Act, 2013;
- b. Jharkhand Right to Fair Compensation and Transparency in Land Acquisition, Resettlement and Rehabilitation Rules, 2015; and
- c. World Bank Operational Policies - OP 4.12 - Involuntary Resettlement, December, 2001

4.1.1 RFCTLARR Act, 2013

RFCTLARR Act, 2013 is applicable in cases where land is secured through involuntary acquisition. It has been introduced to ensure a "humane, participative, informed and transparent process for land acquisition. The requiring agency/Appropriate Government who intends to acquire the land to consult the concerned village / ward level body and carry out a Social Impact Assessment study in consultation with them.

Salient features of the Act are listed below:

- The Act recognizes title-owners and non-titleholders such as agricultural or non-agricultural labourer, landless person (not having homestead land, agricultural land, or either homestead or agricultural land), who have been residing or engaged in any trade, business, occupation or vocation continuously for a period of not less than three years as affected families.
- The Act provides land-for-land for the affected person, and to the extent Government land would be available in the resettlement areas. Moreover, preference for employment in the project to at least one person from each family subject to the availability of vacancies and suitability of the affected person.
- All PAPs are entitled for rehabilitation and resettlement benefits to which they are entitled in monetary terms along with a one-time entitlement of fifty thousand rupees. For ensuring transparency, provision has been made for mandatory dissemination of information on displacement, rehabilitation, and resettlement, with names of the affected persons and details of the rehabilitation packages.
- The Act also provides for institutional arrangements for ensuring proper implementation and monitoring of the Act including the selection of categories of officers in charge for monitoring the Rehabilitation and Resettlement.

4.1.2 Jharkhand LARR Rule, 2015

The JhLARR Rules, 2015 have been drafted by the Government of Jharkhand in exercise of the powers conferred by Section 109 of the RFCTLARR Act, 2013 as the federal regulation. This rule is applicable to the whole state of Jharkhand.

- The rules also specify the process and guidelines for Social Impact Assessment (SIA), process for public hearing and declaration of awards and compensation. The State Rules specifically states the Consent Requirements for the land to be acquired. This includes (i) Consent of the affected land owners (ii) Consent of the Gram Sabha in Scheduled Areas and (iii) Roles and responsibilities of the appropriate Government and Requiring body for consent process.

- The rules mandated to conduct a survey and undertake a census of the affected families within a period of 3 months from the date of publication of the preliminary notification.
- The rules mandated for a rehabilitation and resettlement for affected persons. The same needs to be shared and published with the affected people.
- For compensation, the rules under Section 31 (1) stated that compensation shall be calculated as per the provisions laid down under section 26 to section 30 read with the First Schedule of the Act and paid to all parties whose land or other immovable property has been acquired.

4.1.3 World Bank, OP 4.12 - Involuntary Resettlement

The overall objectives of the policy on resettlement state the following:

- Involuntary resettlement should be avoided where feasible, or minimized, exploring all viable alternative project designs.
- Where it is not feasible to avoid resettlement, resettlement activities should be conceived and executed as sustainable development programs, providing sufficient investment resources to enable the persons displaced by the project to share in project benefits.
- Displaced persons should be meaningfully consulted and should have opportunities to participate in planning and implementing resettlement programs.
- Displaced persons should be assisted in their efforts to improve their livelihoods and standards of living or at least to restore them, in real terms, to pre-displacement levels or to levels prevailing prior to the beginning of project implementation, whichever is higher.

The Involuntary Resettlement Policy (OP 4.12) of World Bank requires:

- Avoiding or minimizing adverse project impacts where possible;
- Consulting with affected people (AP) in project planning and implementation;
- Disclosure of RAP and project related information to the affected person;
- Payment of compensation for acquired assets at the market/replacement value; Resettlement assistance to PAP, including non-titled persons (informal dwellers/ squatters and encroachers);
- Income restoration and rehabilitation program; and
- Special attention for vulnerable groups.

This policy applies that Involuntary Resettlement addresses direct economic and social impacts from project activities that may cause involuntary taking of land resulting in: (i) relocation or loss of shelter, (ii) loss of assets or access to assets, and/or (iii) loss of income sources or livelihoods. In the case of this project since minimum displacement takes place, an abbreviated Resettlement Action Plan is required to be prepared.

4.2 Comparison between National Laws, State Rules and World Bank Policy

The safeguards and provisions mentioned in the RFCTLARRA, 2013 are aligned with the World Bank Operational Policy (WB OP- 4.10 and 4.12), and the Jharkhand State Rules on the Land Acquisition and Involuntary Resettlement have been curved out based on the RFCTLARR Act, 2013 as the federal regulation. The comparison between the World Bank policies, RFCTLARR Act, 2013 and JhLARR Rule, 2015 is presented in **Table 4.1** below.

Table 4.1 Comparison between National Laws and World Bank Policy

| Sl. No. | World Bank OP Requirements | RFCTLARR Act, 2013 | JhLARR Rules, 2015 | Measures to Bridge Gaps (if any) |
|---------|--|---|---|--|
| 1. | Involuntary resettlement should be avoided where feasible, or minimised, exploring all viable alternative project designs. | <ul style="list-style-type: none"> Act aims to promote non-displacing or least-displacing alternatives requires early screening through SIA study; public disclosure and SIA approval are prerequisite to LA | The detail assessment shall determine following: The land proposed for acquisition is the bare minimum required; Possible alternative sites for the project and possibility of use of Government unutilised and unsettled land for the project. | JPSIP should conduct a detailed socio-economic assessment to ascertain the extent of the impact. |
| 2. | Provision of effective compensation at full replacement cost for losses of assets. | <ul style="list-style-type: none"> Compensation for loss of assets at replacement cost (valuation as per the market to be done by experts). Actual compensation is provided to the affected person is in excess of the market value, which is at least 2 times the market value established The stamp duty and other fee payable for registration of the land or house allotted to the affected families shall be borne by JUSNL | <p>The compensation shall be calculated as per the provisions laid down under Section 26 to Section 30 read with the First Schedule of the Act and paid to all parties whose land or other immovable property has been acquired.</p> <p>(Reference to State Rules: Section 31, sub-section (1))</p> | <p>No major gaps assessed as the RFCTLARRA 2013 provides detailed procedure to work out the compensation without any ambiguity and the State Rules follows the National Act.</p> <p>Measure: In the case of standing trees, JPSIP will assessed and compensation for the same has been paid based on the market value.</p> |
| 3. | Assistance (such as moving allowances) during relocation; and support after displacement for a transition period | <p>Provides additional assistance to displaced families, which are as follows:</p> <ul style="list-style-type: none"> Subsistence grant of INR 3,000 for 1 year period and additional provision for SCs & STs; Transportation cost of INR 50,000 for shifting; | <p>The State Rules states that - the Collector shall make Rehabilitation and Resettlement Award for each of the affected families in accordance with the Second Schedule of the Act.</p> <p>(Reference of State Rules: Section 30)</p> | <p>Major gaps have not been assessed.</p> <p>Measures: Affected households (HHs) will receive relocation assistance for shifting as well as support in identifying and negotiating as alternative resettlement site.</p> |

| Sl. No. | World Bank OP Requirements | RFCTLARR Act, 2013 | JhLARR Rules, 2015 | Measures to Bridge Gaps (if any) |
|---------|---|--|--|--|
| | | <ul style="list-style-type: none"> Resettlement allowance of INR 50,000; One-time grant of minimum INR 25,000 to artisans, Choice of annuity (INR 2000/month for 20 years) or employment (1 member for family) or onetime payment of INR 500,000. | | |
| 4. | Resettlement planning implementation and monitoring | <p>The Act outlines: That a Resettlement Schedule be prepared, Details of the Resettlement award</p> <p>The procedure for the award</p> <p>Monitoring of the Resettlement Scheme</p> <p>Establishment of a Land Acquisition, Resettlement and Rehabilitation Authority</p> | <p>Preparation of Rehabilitation and Resettlement Scheme. The Commissioner of Rehabilitation and Resettlement by way of public notice shall publish a summary of the approved Rehabilitation and Resettlement scheme</p> <p>Constitution of Rehabilitation and Resettlement Committee and State Monitoring Committee</p> <p>Establishment of Land Acquisition, Rehabilitation and Resettlement Authority</p> | The RAP for affected persons is developed and the affected person is provided with compensation and resettlement assistance as per the LARR Act. |

5. STAKEHOLDER CONSULTATIONS

This section identifies the primary and the secondary stakeholders and describes the consultation mechanism that have been undertaken for preparation of the RAP for the proposed GSS at Chowka.

The main objective of the consultation is to make the people aware of the proposed project undertaken in their locality and to incorporate their views and suggestions. The effectiveness of the resettlement action plan is directly related to the degree of continuing involvement of stakeholders in the Project development process.

The required action for undertaken an inclusive participation of RAP implementation are as follows:

- Identification of stakeholders who are directly and indirectly involved in the planning and implementation of the R&R
- Continuous engagement with all stakeholders throughout the entire stages
- Managing community hesitations about implications of the project;
- Garnering voluntary support for the project;
- Having a robust grievances redress mechanism for addressing any issues or concern faced by stakeholders that may have an implication on the R&R.

For an effective engagement of stakeholders, JUSNL will ensure that the RAP is made available to the public and to the local people.

5.1 Stakeholder Identification

The stakeholders, who would directly be impacted by the project, are known as Primary Stakeholders, those who are indirectly impacted are known as Secondary Stakeholders. Keeping in mind the nature of the project and its setting, the stakeholders have been identified and listed in the **Table 5.1** below:

Table 5.1 List of key stakeholders

| Stakeholder Category/ Group Key Stakeholders | |
|--|--|
| Primary Stakeholders | <ul style="list-style-type: none"> ■ Project Affected Persons ■ Jharkhand Urja Sancharan Nigam Limited |
| Secondary Stakeholder | <ul style="list-style-type: none"> ■ Local Community ■ Gram Panchayat ■ Circle Office, Chowka ■ Land acquisition officer of Saraikela ■ DLRO of Saraikela |

5.2 Summary of the Stakeholder Consultation

Specific consultations have been carried out with the concerned project affected landowners/ PAPs and their family members, local village community, JUSNL local office and Land Revenue Department, during planning phase and RAP finalization stages for this project. Stakeholder consultations were conducted to assess the level of dependence of the PAPs on the proposed private land parcels for the proposed GSS, impact on the PAPs and probable mitigations/compensations modalities. The details and findings of the stakeholder consultation process are outlined in the **Table 5.2** below.

Attendance sheets for the stakeholder consultation meeting process are provided under **Appendix D**.

Table 5.2 Summary of Stakeholder Consultations

| S. No. | Stakeholder Category | Key Points Discussed | Outcomes in brief |
|--|--|---|---|
| Project Affected Persons and Family Members | | | |
| 1.1 | <p>Land Owners of the identified Private land parcel</p> <p>(Location - Ghatdulmi village; Date- 18/12/2017; No of Participants- 2 living persons among 5 main titleholders for the affected land parcels)</p> <p>(Location - Ghat Dumli village; Date- 18/12/2017; No of Participants- 5)</p> <p>(Location - Khunti village; Date- 18/12/2017; No of Participants- 7)</p> <p>(Location - Ghat Dumli village; Date- 08/02/2020; No of Participants- 5)</p> | <ul style="list-style-type: none"> Details of land parcel for which land owner has provided their consent; Current land use of the land identified for the project; Presence of any assets on the land parcel; Welfare status of the landowner families | <ul style="list-style-type: none"> All the land owners belong to Munda Scheduled Tribe of Ghatdulmi Village; The Scheduled Tribes (ST) prevalent in the villages are Munda and Santhal Tribes; The landowners have provided their consent (enclosed as Appendix E) for the construction of the project as the current land use of the project site is scrub land and there is no agriculture being practiced from last 10-15 years. There is no involuntary resettlement and economic displacement associated with the project land parcel as the land is free from any encumbrances. All the landowners have land holdings apart from the land identified for the project. In terms of occupation, during the monsoon, landowners do cultivation on the other land parcels owned by them, and for rest period of the year they work as agricultural labourers. During consultation process, it was confirmed by the landowners that, there are no private assets such as well/submersible pump/fruit bearing trees present on the identified land parcel. All 17 affected land owners has submitted formal NOC declaration to the land revenue department towards hand over of the land and acceptance of the determined land compensation amount based on government land valuation. As on 08/02/2020, out of 17 PAPs, 15 persons have received their compensation amount through bank A/c and they have mostly fixed the compensation amount under fixed deposit scheme at bank. |

| 1.5 | Head Clerk of Assistant District Collector Office (Location - Saraikela Kharsawan District; Date- 18/12/2017; No of Participants- 1) | <ul style="list-style-type: none"> Social Impact Assessment to be undertaken (agency name and inclusions of the report); Categorization of land in the district; Land Evaluation rates for various category of land as per rates in FY 2016-2017; Timelines for Completion of Land Acquisition process for the Rayati Land | <ul style="list-style-type: none"> JSUNL has submitted the fees and request for undertaking SIA of the identified Rayati Land parcel on 15th December, 2017; Sharda Agricultural Research Development Centre' will undertake the SIA for the proposed land parcel; Generally, land is categorized into four (4) categories; namely residential land, agricultural land, commercial and industrial land; The private land identified for the proposed project will fall under agricultural land for which circle rate is INR 5427 per decimal; After SIA, 15 days' notice will be sent to Gram Sabha of Ghatdulmi Village for summarizing findings of SIA in-front of local community and address their concerns if any; Subsequent to this, finalization of SIA will take place after incorporation of comments and a notification will be issued from District Collector Office for acquiring of land. |
| 1.6 | DLRO (Location - Saraikela Kharsawan District; Date- 15/07/2020; No of Participants- 3) | <ul style="list-style-type: none"> Provision of compensation for trees present on private land at the proposed Chowka GSS site during land compensation processing to land owners. | <ul style="list-style-type: none"> A joint meeting conducted with DLAO Saraikela Kharsawan in presence of EE JUSNL, Chandil and PMC regarding the matter on any compensation component considered for the trees existed on GSS site to the private landowners (MoM is enclosed as Appendix K); DLAO has informed that land acquisition for the Chowka GSS has been undertaken duly following all relevant government procedures as per the Jharkhand Land Acquisition Rule, 2015; DLAO has also explained that as per government procedure, during these private land acquisitions, land revenue department identifies the land then check for basic requirements such as presence of any assets such as building structures, wells, trees, religious structures on the demarcated land parcel. If any, timber trees, fruit bearing trees, crops or any |

| S. No. | Stakeholder Category | Key Points Discussed | Outcomes in brief |
|--------|----------------------|----------------------|--|
| | | | <p>structure are existing on the identified land then only approaches to the forest department or agriculture department or concerned departments for valuation.</p> <ul style="list-style-type: none"> As there were no such structures, timber and fruit bearing trees or cropping practices were observed on the land identified for Chowka GSS, hence no additional compensation component has been considered and the land transaction was duly completed in line with the requirements stipulated under Jharkhand Land Acquisition Rule, 2015. Compensation had been paid to landowners as per government procedure following provision of JhLARR Rule, 2015 and the land rights has been transferred to JUSNL on 31st January 2019. |

6. ELIGIBILITY AND ENTITLEMENTS

The eligibility and entitlement framework for the proposed project have been prepared based on the Resettlement Framework that has been adopted by the JUSNL for JPSIP.

6.1 Eligibility

Affected land owners with legal title, including inheritance rights recognized under the laws of the country); Altogether 17 PAPs (which includes the principal titleholder and the immediate descendants of the principal titleholders) have been identified and are considered eligible for compensation and rehabilitation measure.

6.2 Cut-off-Date

For land being acquired under the provisions of the RFCTLARR Act, 2013 the cut-off dates have been defined as follows:

- For title holders, the date of first notification has been treated as the cut-off date as stated under Section 11 of RFCTLARR Act, 2013. Regarding, Chowka GSS site the first notification issued by DC Office was on **6th June 2017**, hence this is considered as the cut-off-date.

6.3 Entitlement Matrix

The Entitlement Matrix (EM) is developed based on the Resettlement Framework prepared for JPSIP, which has been approved by JUSNL and the World Bank. Entitlement matrix as per the approved Resettlement Framework is based on the regulatory requirements specified under the RFCTLARR Act, 2013, which is also in compliance with the safeguards as outlined in World Bank Operational Policy, OP-4.2 for Involuntary Resettlement. The matrix outlines the entitlements for compensating lost assets, income losses and different resettlement benefits.

Table 6.1 Entitlement Matrix

| Sl. No. | Type of Loss | Application | Entitled Persons | Compensation |
|---|-------------------------------|------------------------|--|--|
| A. Loss of Land | | | | |
| A.1 | Loss of Private land | Scrub land/Barren Land | Land owner/traditional/customary right over land | <ul style="list-style-type: none"> ■ Compensation for loss of land at market value as specified in the RFCTLARRA 2013 or land-for-land where feasible. ■ Solatium of 100 percent of the market value of land. The market value shall be determined on the cut-off-date on which the preliminary notification issued under Section 11 of RFCTLARR Act, 2013. ■ All fees, stamp duties, taxes, and other charges, as applicable under the relevant laws, incurred in the relocation and rehabilitation process, are to be borne by the IA (if applicable) |
| B. Impact on Vulnerable Affected Persons | | | | |
| B.1 | Impact on vulnerable affected | All Impacts | Legal titleholders | <ul style="list-style-type: none"> ■ One time Resettlement Allowance of INR 50,000 per affected family. |

| Sl. No. | Type of Loss | Application | Entitled Persons | Compensation |
|------------|---------------------------------------|-------------|-------------------|---|
| | persons | | | |
| B.2 | Impact on vulnerable affected persons | All Impacts | Legal titleholder | <ul style="list-style-type: none"> ■ In addition to A.1, preferential income restoration through skills training and work opportunity to the PAP or any one member of the family as unskilled worker under the project during construction and implementation of the substation. |

6.4 Income Restoration

The affected families have been identified to be vulnerable (all belong to ST category) will be given preference during the construction of the substation to work as unskilled labours and may also be considered for locally procuring materials from local resources in order to support the local economy.

7. GRIEVANCE REDRESS MECHANISM (GRM)

The project census survey has been conducted to ensure that 100% of the project affected persons are enlisted describing their loss, however it is more likely that some residents may have a grievance regarding their entitlements. Grievance Redress is a very important part of resettlement project implementation. Therefore, JUSNL will put in place an institutional level grievance redress mechanism for JPSIP to facilitate concerns, complaints, and grievances about the social and environmental performances, which is applicable to the proposed Chowka GSS Project and ARAP implementation. This mechanism would not only help in developing an accountability of the project toward all stakeholders but also ensure that the project complies with the safeguard requirement of the World Bank.

The objective of the GRM is to provide a petitioner an opportunity to register his complaints. The problems arising could probably related to land acquisition, resettlement, and safety problems arising during construction related activities and site clearing etc. Most of the conflicts and allegations may not appear to be of serious nature but if not managed appropriately from the beginning may lead to material issues or loss of reputation. In this backdrop, the proposed GRM would provide an aggrieved party/s opportunity to lodge complaints and received amicably settlement. However, if he/she is still aggrieved with the outcome of the GRM he/she is free to approach the court of law for redressal. The structures, processes and outcomes are described in the following sections.

7.1 Objectives of the Grievance Redress Mechanism

The objective of the GRM shall be:

- to provide an accessible mechanism to the affected people, community or any stakeholder(s) having a stake in the project to redress their issues and grievances in regards to project functioning;
- to resolve any social issues (including compensation, resettlement, labour, contractor, community amongst others) and environmental related grievances locally in consultation with the aggrieved party to facilitate smooth implementation of project related work activities.
- to democratize the development process at the local level and to establish accountability of all parties associated with project implementation towards the stakeholders.

7.2 Grievance Redress Mechanism for the GSS Project

Grievance Redress Process - A three-tier process of grievance redressal is established in the project. The mechanism has been designed taking into consideration the contextual factors –geopolitically and socio-cultural aspects.

A three tier Grievance Mechanism is described below:

- **Tier 1 - Circle Level:** The complaints /grievances may be received by the Engineer in charge of the Jamshedpur circle verbally or through written applications. The complaints will be directly sent to the Environmental and Social Development Officer (E&SDO) at the PIU level. The complaints will be reviewed by the E&SDO and efforts will be made to resolve them in consultation with the affected persons or any other stakeholder, who has lodged the grievance/complaint along with (1st Level) Superintending Engineer/Executive Engineers (Jamshedpur circle) and Executive Engineer. Effort to resolve the grievance/ complaint within a period of 21 days from the date of receipt of the complaint will be made. In case the aggrieved is not satisfied with the solution provided Tier 1, he/she may escalate it to Tier 2: Zone Level.
- **Tier 2 - Zonal Level:** Complaints /grievances that cannot be resolved at Level 1 or if the aggrieved is not satisfied with the decision of the Tier 1 and appeals for redressal only such cases would be taken up at Tier II. The Chief Engineer cum GM of the Jamshedpur Zone and all the Superintending Engineers (Circle Level) of the Zone would be the members of Tier 2 level along with the E&SDO. The Social Welfare Officer, of the Social Welfare Department at the district level may be invited to

jointly resolve cases related to tribal issues along with other members of Tier 2. They would hear the aggrieved and also review the proceedings of the Division Level and provide relief to the aggrieved. The entire process would be completed within 45 days of the complainant being referred to Tier II. Unsatisfied with the solution the Complainant can approach the Tier III: GRC Level. If the complainant is not satisfied with the solution provided at Tier 2 the grievance/complaint can be escalated on to the Tier 3.

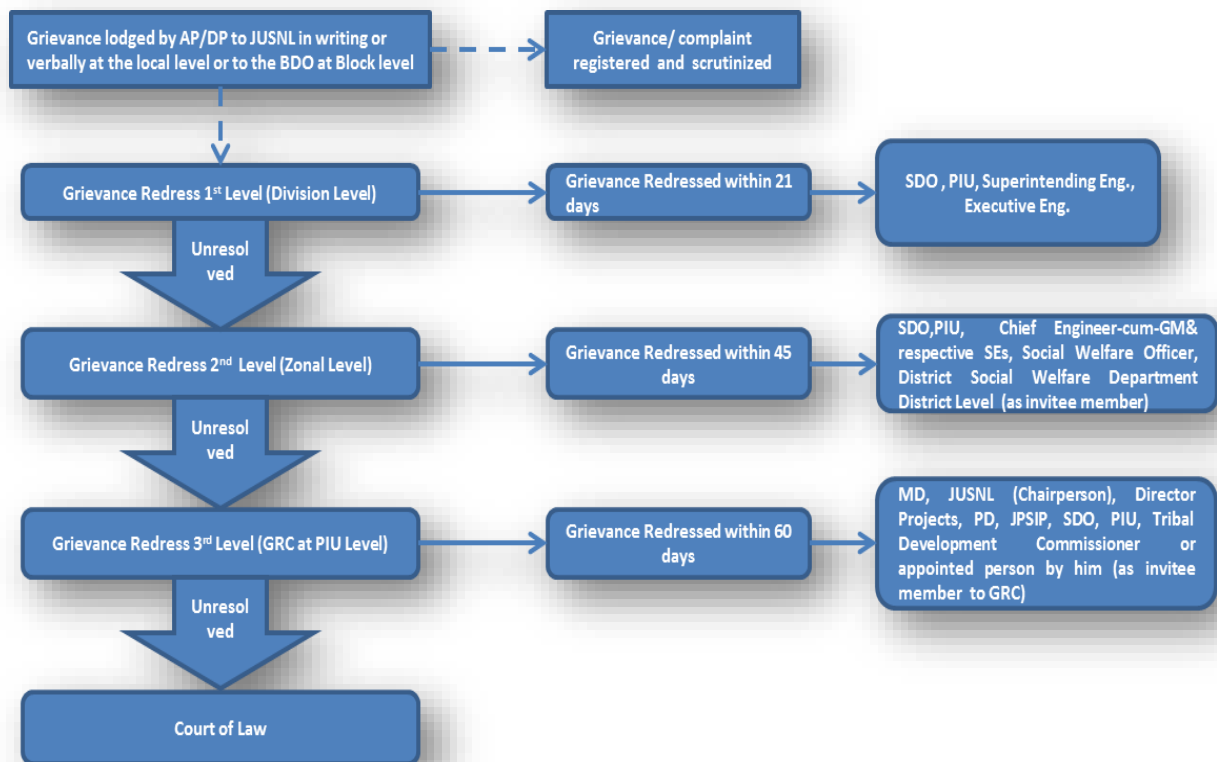

- **Tier 3 - Grievance Redressal Committee:** The 3rd Level will be the Grievance Redressal Committee (GRC) at JUSNL PIU level. Any grievances that cannot be addressed or resolved at Tier 2 may be brought up to GRC. The cell would be headed by the Managing Director or his representative not below the rank of Director (Projects) of JUSNL along with PD, JPSIP and E&SDO. The respective Chief Engineer of the Zone from where the complaint has been lodged would be an invited member. The Tribal Development Commissioner or any other representative as appointed by him will be an invited guest member of GRC for resolving tribal related issues. The GRC will resolve the matter within a time period of 60 days from the date of receipt of the complaint at Tier 3.
- **District Administration:** In case of grievance regarding the use of land by JUSNL for the construction of the substation, the landowner can approach the Deputy Commissioner for redressal under the provision of the Work for license Rules 2017.
- **Court of Law:** If the grievance/ complaint is not resolved at GRC Level or the complainant is not satisfied with the solution provided by GRC, the person may approach Court of Law.

| Jamshedpur Zone (Tier 2) | Name: Sri Anil Kumar Bhartiya (GM-cum-CE) Number: 9431707313 |
| Jamshedpur Circle (Tier 1) | Name: Sri Arun Kumar (Deputy General Manager) Number: 7070816390 |
| Chandil Division | Name: Sri Chitranjan Kumar Pandey (Electrical Executive Engineer) Number: 9431707318 |

The grievance redressal process is illustrated in **Figure 7.1** below.

Figure 7.1 Proposed Grievance Redress Structure

8. IMPLEMENTATION ARRANGEMENT FOR ARAP

The abbreviated RAP for Chowka GSS site is prepared based on the R&R scheme developed by the District Land Acquisition Division, District Collector, Saraikela Kharsawan district and the approved Resettlement Framework for JPSIP (approved by the JUSNL Executive Board)¹ as per the regulatory requirements viz. Jharkhand Right to Fair and Compensation rules 2015 and RFTCLARR Act, 2013, Section 17, 18 and 19.

Compensation measures for private land owners proposed in this ARAP are adopted based on the R&R scheme prepared by the Land Acquisition Division, District Collector, Saraikela Kharsawan District as per the provision specified under RFTCLARR Act, 2013 Section 26, 27, 28 and 30.

Following **Table 8.1** outlines the institutional arrangement and roles & responsibilities for compensation of the private landowners.

Table 8.1 Institutional Arrangement and Responsibilities for RAP

| Sl. No | Institutions | Responsibilities |
|--------|--|---|
| 1 | Circle Officer, Chowka Circle | <ul style="list-style-type: none"> Identify landowners as per land record. Prepare land schedule for the land parcels planned for acquisition. Undertaking gram sabha and obtaining consent of landowners. |
| 2 | Land Acquisition Officer, Saraikela District | <ul style="list-style-type: none"> To prepare a draft Rehabilitation and Resettlement Scheme for the land acquisition purpose to be approved by the District Collector (of the concerned district); To publish the draft scheme by the mode provided under the JhLARR Rules, 2015 Rule 25; To make the draft scheme available to the concerned persons and authorities; To organize and conduct public hearings on the draft scheme; To submit the draft scheme to the Collector; To publish the approved Rehabilitation and Resettlement Scheme in the affected area as defined under Section 18 of RFTCLARR Act, 2013; To distribute the Rehabilitation and Resettlement award; To monitor and supervise the implementation of the Rehabilitation award; To assist in post-implementation audit of Rehabilitation and Resettlement |
| 3 | Nodal Officer, Jamshedpur Circle, JUSNL | <ul style="list-style-type: none"> Liaisoning with the Land Acquisition Officer of Saraikela Kharsawan District; Providing field level input to Land Acquisition Officer of Saraikela Kharsawan District; Facilitating in the stakeholder consultation process between land owners and Land Acquisition Officer; On behalf of JUSNL, facilitate to deposit the fund for compensation payment to the Land Acquisition Officer as per the R&R Scheme; On behalf of JUSNL, facilitate to disburse One-time Resettlement Allowance to the identified PAFs as per the ARAP budget; To record grievance and ensure timely closure. |

The Contractor responsible for construction of the GSS should also have a Social Officer for addressing the social concerns. Following are the responsibilities of the Social Officer.

Table 8.2 Responsibilities of Social Officer of Contractor Firm

|---|--|---|

9. VALUATION AND BUDGET FOR ARAP

The valuation method for this A-RAP is based on the RFTCLARR Act, 2013 whereby income and assets loss has been compensated at full replacement cost and the current market prices of the project areas is taken into account for calculating the replacement cost.

Valuation and budgeting approach for the A-RAP has been adopted based on the R&R scheme (refer **Appendix F**) developed by the District Land Acquisition Division, District Collector, Saraikela Kharsawan district as per the regulatory requirements of RFTCLARR Act, 2013 and in compliance with the approved ESMF and Entitlement Matrix stipulated under the approved Resettlement Framework for JPSIP². The Entitlement Matrix is based on the RFTCLARR Act, 2013, which is also in compliance with the safeguards as outlined in World Bank Operational Policy, OP-4.12 for Involuntary Resettlement.

9.1 Different Costs

9.1.1 Land

Land prices has been determined based on the land type classification by the Government of Jharkhand. Land Acquisition Division, District Collector, Saraikela Kharsawan district has duly carried out the land valuation based on the requirement of RFTCLARR Act, 2013.

As per the R&R scheme prepared by the District Land Acquisition Division, District Collector, Saraikela Kharsawan district (refer **Appendix F**), the land compensation has been determined as per market value for the land and adopting the statutory requirements (multiplier, Solatium, additional market value etc.) as per the provision specified under RFTCLARR Act, 2013 Section 26, 27, 28 and 30.

Table 9.1 below provides a land valuation details for compensation for the affected persons.

Table 9.1 Land valuation

| Name of Village | Total land acquired in acre | Total Area in Decimal | Multiplier as per RFTCLARR Act, 2013 | Solatium as per RFTCLARR Act, 2013 | Additional Mark-up on Market Value as per RFTCLARR Act, 2013 |
|-----------------|-----------------------------|-----------------------|--------------------------------------|------------------------------------|--|
| Ghatdulmi | 7.16 | 716 | 2 | 100% | 12% |

Source: Land Acquisition Division, District Collector, Saraikela Kharsawan District vide letter dated 25 September 2018

9.1.2 Properties on Land

The identified private land area admeasuring 7.16 acre is scrub land and no agriculture land reportedly exists within the proposed site. During stakeholder consultation process conducted with the private land owners at the site, it was further confirmed by the individual land owners that no cultivation is carried out in the affected land parcel and there are no private assets such as residential or commercial structures, wells, submersible pumps, fruit bearing trees present on their lands, moreover the affected households are not dependent on the affected land parcels for their livelihood and also does not involve any physical displacement. Therefore, the compensation provisions related to “subsistence allowance for displaced families” and “onetime financial assistance on account of transportation cost for displaced families” as indicated under the Entitlement Matrix of the approved Resettlement Framework for JPSIP and Section 31(1), Second Schedule, Item 5 and 6 of RFTCLARR Act, 2013 were not considered applicable for the affected families related to the Chowka GSS site.

² Traceability: http://www.jusnl.in/pdf/rpf_ipsip_anx_1.pdf (Last accessed on 01 Sep 2020)

As consulted with the Circle Inspector - Chandil Block, a Social Impact Assessment (SIA) study was undertaken by Govt. of Jharkhand empanelled agency (Sharda Agricultural Research and Development Agency) in 2017 as part of the land procurement process following the requirement of Jharkhand Right to Fair Compensation and Transparency in Land Acquisition, Resettlement and Rehabilitation Rules, 2015 and an Expert Group was formed vide Letter dated 8th May 2018 to apprise the SIA report. The said SIA report has also captured the fact related to no agricultural use of the land and categorised the concerned private land parcel as scrub land.

There are more than 300 trees present on the site, predominantly of fire wood category Palash (refer **Appendix N**). However, to assess any consideration towards compensation for trees present on the private land during government of Jharkhand land compensation process, a joint meeting was conducted with DLAO Saraikela Kharsawan in presence of Executive Engineer JUSNL, Chandil and PMC (MoM is enclosed as **Appendix M**). During the meeting, DLAO has informed that land acquisition for the Chowka GSS site has been undertaken duly following all relevant government procedures as per the Jharkhand Land Acquisition Rule, 2015, land compensation had been paid to the private landowners as per government procedure following provision of Jharkhand Land Acquisition Rule, 2015 and land rights have been transferred JUSNL on 31st January 2019.

DLAO has also explained that as per government procedure, during these private land acquisitions, land revenue department identifies the land then check for basic requirements such as presence of any assets such as building structures, wells, trees, religious structures on the demarcated land parcel. If any, timber trees, fruit bearing trees, crops or any structure are existing on the identified land then only approaches to the forest department or agriculture department or concerned departments for valuation. As there were no such structures, timber and fruit bearing trees or cropping practices were observed on the land identified for Chowka GSS site, hence no additional compensation component has been considered and the land transaction was duly completed in line with the requirements stipulated under Jharkhand Land Acquisition Rule, 2015.

9.1.3 Resettlement Allowance

In process of socio-economic survey stakeholder consultations, it has been identified that although the affected families are not dependent on the affected private land parcels for their livelihood and also does not involve any physical displacement, however all the affected families involve marginal landholders, belongs to Scheduled Tribe (ST) category and falls below the poverty line (BPL). The project affected families also include elderly people (above 60 years of age), female headed households and widowers, who are considered as vulnerable affected persons.

Therefore, as per the provision under Entitlement Matrix of the approved Resettlement Framework for JPSIP and as per the provision stipulated under Second Schedule, Item 10 of RFTCLARR Act, 2013 an one-time resettlement allowance on INR 50,000 per project affected families has been included as part of the compensation in form of *ex-gratia* payment in order to improve their standard of living.

9.2 ARAP Budget

The total budget for providing land compensation for the seventeen (17) affected persons due to acquisition of total 7.16 acres private land has been determined as **INR 1,68,89,723**. This land compensation budget is determined based on the provisions stipulated under entitlement matrix of approved Resettlement Framework for JPSIP and resettlement and rehabilitation (R&R) scheme prepared by the District Land Acquisition department, Saraikela Kharsawan district. (Refer **Appendix F** for R&R scheme prepared by the District Land Acquisition department, Saraikela Kharsawan district).

The R&R scheme, as prepared by District Land Acquisition Division, Saraikela Kharsawan district, that did not include the One Time Resettlement Allowance component as outlined in the Resettlement Framework for JPSIP. Therefore, apart from the land compensation, the A-RAP budget also includes additional one-time resettlement allowance of Rs. 50,000 for each of the project affected vulnerable families involving marginal landholders, senior citizens and widowers belonging to ST and BPL category

in accordance with the approved ESMF and Entitlement Matrix as stipulated under the approved Resettlement Framework for JPSIP in accordance to the requirements of RFTCLARR Act, 2013. This one-time resettlement allowance component sums up to total **INR 8,50,000**.

Therefore, the total amount of the ARAP budget has been determined as **INR 1,77,39,732**. Break-up details of the budgeted figure is outlined in the **Table 9.2** below.

Table 9.2 ARAP Budget

| Sl. No. | Description | Unit | Rate (in INR) | Amount (in INR) |
|-----------|--|---------|---------------|-----------------------|
| A. | Land Compensation for Titleholders (As per R&R scheme prepared by the District Land Acquisition department, Saraikela Kharsawan district.) | | | |
| A.1 | Replacement value of land as per Section 26 and Section 30 of RFTCLARR Act, 2013 | 17 PAPs | - | 1,68,89,723.00 |
| | Sub-Total (A) | | | 1,68,89,723.00 |
| B. | Resettlement allowance | | | |
| B.1 | Ex-gratia financial support to vulnerable project affected families | 17 PAFs | 50,000 | 8,50,000.00 |
| | Sub-Total (B) | | | 8,50,000.00 |
| | Total Budget (A+B) | | | 1,77,39,732.00 |

9.3 Other Entitlements

9.3.1 Skill Development and Employment Opportunities for Vulnerable Affected Persons

Stipulated provisions are included under the approved ESMF and agreed Entitlement Matrix under the approved Resettlement Framework for JPSIP, in order to reduce negative impact on the vulnerable affected persons and vulnerable households due to project implementation as discussed under section 9.1.3 above and to improve their livelihood opportunities.

As per the requirement of the approved Resettlement Framework, other entitlement provisions are included as part of the ARAP implementation, related to preferential income restoration through skills training and work opportunity to the respective vulnerable PAPs or any one member of the family as unskilled worker under the project during construction and implementation of the substation.

As the process of skill and employment opportunities development for the vulnerable affected persons at the project location, the following approach will be considered by the Implementation Agency involving the concerned EPC agency contracted for the Chowka GSS;

- Family members of the seventeen (17) affected persons will be screened to check the availability of adult male or female members (excluding persons over 55 years of age) who interested to engage for skill development programme and employment opportunities under the project;

- Among the interested persons, will be further screened on the options and appropriateness related to deployment for unskilled and semi-skill work areas under the project construction and implementation phase;
- Potential skill development areas such as (masonry work, welding, re-bar bending, painting etc.) will be identified for the interested semi-skilled personnel at the project site;
- Before real-time engagement /employment of the interested unskilled and semi-skilled PAPs at the project site, mandatory details on the job profile will be thoroughly shared with the candidates;
- One man-month on-job skill development training for each semi-skilled workers will be provided at the project site before deployment;

Since the project location is near to the industrial and commercial zone of Jamshedpur and its vicinity, therefore, the skill development and real time work experience during project construction and implementation phase will also assist the PAPs or their family members to enhance their employability at industrial/ commercial set-up as indirect benefit to their livelihood.

10. TRIBAL DEVELOPMENT PLAN IMPLEMENTATION

10.1.1 Need for Tribal People's Plan

The Tribal People Planning Framework³ for JPSIP dated September 2017 and Tribal Peoples' Plan (TPP) dated April 2018 has been developed to address the assessed needs of the tribal people within the project foot print of JPSIP. TPP addresses the assessed needs of tribal people and impacts in the project affected locations, through meaningful, realistic community betterment opportunities, such that they are culturally appropriate and beneficial for the tribal community.

JUSNL aims to develop the project in a sustainable manner for which an Environmental and Social Management Framework had been developed along with specific frameworks for Tribal Population (Tribal Development Planning Framework), land acquisition; resettlement impacts (Resettlement Framework), etc. Based on the higher-level guidance, each scheme has undergone project specific Environmental and Social Impact Assessments (ESIAs) in order to come out with project specific environmental and social mitigation measures and management plans. Analysis of the demographic information in the baseline section of the ESIAs indicate that there are several tribal dominated villages within the area of influence for grid substations and transmission lines. Assessment of the Census 2011 data shows that Jharkhand has considerable tribal population. Schedule Tribes (ST) constitutes 26.2 percent of the total population of the State. Jharkhand is home to 32 identified tribal communities including 8 Particularly Vulnerable Tribal Groups (PVTGs). The Schedule Tribes are groups have distinct cultural identity and social and economic disadvantages.

The Program interventions does not adversely affect the tribal people or the population, however, as groups having distinct socio-cultural identity are normally excluded, special attentions will be required to ensure their inclusion and equality. Thus, this Tribal People's Plan (TPP) has been prepared to address the assessed needs of tribal people and mitigate the impacts in the project affected locations, within the project foot print of JPSIP, through meaningful and realistic community betterment opportunities, such that they are culturally appropriate and beneficial for the tribal community. The TPP states the policies, principles, implementation mechanisms to address the impacts that may be potentially caused by the project.

Chowka GSS site is located at the Ghatdulmi village, Chandil Block, Saraikela Kharsawan District, Jharkhand, which has tribal populated villages (with more than 50% tribal population) within 2 km periphery of the GSS site. Moreover, identified all 17 PAPs belongs to ST community.

³ Traceability https://www.jusnl.in/pdf/tppf_ipsip_anx_2.pdf (Last accessed on 06 January 2021)

10.1.2 Tribal People's Plan Implementation Approach

The implementation approach of the tribal development plan is defined based on Tribal People Planning Framework and Tribal People's Plan prepared for JPSIP, which approved by JUSNL Board and the World Bank.

The Tribal Peoples' Plan (TPP) sets out culturally appropriate measures to mitigate the impacts that may be caused due to project implementation due to acquisition of private land parcels, pressure on common property resources like roads and potential impact on culturally sensitive area. It may also cause some disturbances during the construction period due to vehicular movement for carrying of constructions materials.

The socio-economic survey conducted by ERM at the project site based on community consultations and site visits has revealed that, most of the tribal people are very much part of the mainstream population at present. The need assessment conducted with the tribal people indicated that more than culturally appropriate mitigations they are concerned more with social and economic issues and its mitigation measures. The mitigation measures proposed under the Tribal People Planning Framework and Tribal People's Plan prepared for JPSIP are based on the felt needs as stated during community consultations.

Considering the project activity related to Grid Substation (GSS) it is anticipated that magnitude of project related impacts is likely to be perceived within 1 km surrounding area and if any accidental spill-over of impact will occur within the lifecycle of the project, the same is not envisaged to go beyond the 2 km. Hence, in view of this a radial distance up to 2 km from proposed Grid substation (GSS) boundary has been considered as the Area of Influence (AOI).

Based on the socio-economic survey conducted by ERM and Census 2011 data, there are three (3) tribal villages within 2 km Periphery of the Chowka GSS site having with more than 50 percent Tribal population. The details of the three peripheral tribal villages as outlined in the **Table 10.1** below.

Table 10.1 Summary of GSS Location and AOI

| GSS | Location | | | No of villages within two km periphery of the GSS site | Total no of Tribal Villages with more than 50 percent Tribal population with 2 km Periphery of the proposed GSS | Details of the Three Peripheral Tribal Villages |
|--------|-----------|--------|---------------------|--|---|---|
| | Village | Block | District | | | |
| Chowka | Ghatdulmi | Chowka | Saraikela Kharsawan | 5 | 3 | <ol style="list-style-type: none"> 1. South of Chowka GSS site - Ghatdulmi village, (ST community Santhal and Singh Munda) 2. West of Chowka GSS site - Tanki Garha village, (ST community Singh Munda) 3. East of Chowka GSS site - Balidhi Tulgarm village, (ST community Santhal and Singh Munda) |

10.1.2.1 *TPP implementation measures*

The TPP implementation measures for the three tribal villages within the area of influence of Chowka GSS site involves three step peripheral development initiatives at Ghatdulmi, Tanki Garha and Balidhi Tulgarm villages located around the Chowka GSS site.

■ **Installation of hand pumps for drinking water supply:**

During the construction of GSS, JUSNL will take initiative to install at least one (1) hand pumps in each of the identified three tribal villages located around the Chowka GSS site. JUSNL will bestow the responsibility of installation of the hand pumps through Department of Drinking Water and Sanitation. The land for the installation of the hand pumps to be identified and provided by the community people. The capital cost for installation of the hand pumps to be borne by JPSIP.

■ **Construction of Chabutaras (Raised Platform):**

The chabutaras or raised platforms will be constructed by the Contractor (hired for GSS construction), in one each of the identified three tribal villages located around the Chowka GSS site, based on discussions held with the village headman (Pradhan), the tribal community people and representative of JUSNL in a suitable place. The land for the chabutara is to be identified and provided by the community; construction of the Chabutara will be done by the Contractor and the cost for construction of Chabutaras will be borne by JPSIP.

The respective Junior Engineers, JUSNL at the Sector Level along with the responsible NGO hired by JPSIP for implementation of the TPP will conduct the village level meeting with the Gram Panchayat Mukhiyas and community for selection of suitable land for the installation of the hand pumps and constructions of the Chabutaras. The land for the development components to be identified and donated by the community or the Gram Panchayat. Installation of the hand pumps to be done by PHED at the respective Block level and construction of the Chabutaras by the Contractor hired for GSS construction. Negotiation and mobilisation of the Public Health Engineering Department (PHED), for the installation of the hand pumps will be done at the state level by the PIU and at the Block level by the Executive Engineers (Division Level, JUSNL). The SDO will be responsible to monitor the entire programme implementation.

10.1.2.2 *Institutional arrangement for TPP implementation*

As per the approved Tribal People's Plan prepared for JPSIP, in order to implement specifically addressing any issues related to land and TPP, PIU JPSIP shall give the responsibility to a person of "Executive Engineer" rank within the existing system who can execute the roles and responsibilities of Social Development Officer (SDO). In addition to the above, a Non-Governmental Agency will be appointed by JPSIP to assist them with the implementation of TPP. The same agency in coordination with Social Development Officer of JPSIP will help implement Tribal People Plan.

10.1.2.3 *Budget for TPP implementation*

As per the approved Tribal People's Plan prepared for JPSIP, there is a designated budget provisioned to meet up the different expenditures on account of implementation of the mitigation measures for the specified schemes of JPSIP. Based on the estimated cost of TPP implementation for JPSIP as outlined under the Tribal People's Plan, the total TPP implementation budget for Chowka GSS site has been determined as **INR 7,42,425**. Break-up details of the budgeted figure is outlined in the **Table 10.2** below.

Table 10.2 TPP Implementation Budget

| Sl. No. | Description | Unit | Rate in INR | Amount in INR |
|-----------|--|------|-------------|---------------|
| A. | Expenses Related to TPP Implementation Activities | | | |

| | | | | |
|----------------------------|--|-----------------------------------|----------|-----------------|
| A.1 | Installation of 1 Hand Pump in each of the three (3) the tribal village | 3 | 1,58,837 | 476,511 |
| A.2 | Construction of one Raised Platform of area 20'x 10' in each of the three (3) the tribal village | 3 | 38,638 | 1,15,914 |
| Sub-Total (A.1+A.2) | | | | 592,425 |
| B. | Other Expenses for TPP Implementation | | | |
| B.1 | Cost of NGO for TPP Implementation | 3 (number of site basis) | 50,000 | 1,50,000 |
| Sub-Total (B) | | | | 1,50,000 |
| Total-Budget (A+B) | | | | 7,42,425 |

11. STATUS OF LAND ACQUISITION AND LAND COMPENSATION PAYMENT

Implementation of the Chowka GSS involves both government land and private owned land parcels. The identified land area for the substation measures 7.43 acres, which comprises of 0.27 acre of Gair Majurwa (GM) land/ government land, which has been duly handed over to JUSNL by state government land revenue department during July 2019. The NOC dated 10th July 2019 is enclosed as **Appendix C**.

The land acquisition process for the proposed grid substation impacts the 7.16 acre of private land that belongs to principal titleholders (i) Late Dinu Sardar (ii) Mochi Ram Patar and Gulab Patar son of late Budha Patar etc. and (iii) Late Suryan Singh Munda etc. As per the land acquisition process procedural requirements stipulated under Section 11 under RFCTLARR Act, 2013, Government of Jharkhand has published the Gazette Notification for the land acquisition vide District Gazette no. 211; dated 1st August 2018 (notification is enclosed as **Appendix B**).

The R&R scheme related to the private land acquisition and land compensation has been prepared by the District Land Acquisition Division, District Collector, Saraikela Kharsawan district as per the statutory requirement of Section 17, 18 and 19 under RFTCLARR Act, 2013. The land compensation estimation has been determined by the District Land Acquisition Division as per the provision specified under RFTCLARR Act, 2013 Section 26, 27, 28 and 30.

The corresponding land acquisition and land compensation process as adopted by the District Land Acquisition Officer (DLAO), Saraikela Kharsawan as per the requirement of Section 23 & 30 of RFCTLARR Act, 2013 and JhLARR Rule, 2015, can be referred from the documentary evidences enclosed under **Appendix F** to **Appendix L** of this report, as outlined below:

- Letter (ref. no. 830/ LO; dated 25.09.2008) from DLAO office, Saraikela Kharsawan district to JUSNL, Chandil regarding valuation of concerned private land parcels and demand note for submission of the total compensation amount (INR 1,68,89,732) as per requirement of Section 19 under RFCTLARR Act, 2013;
- Land compensation notices (DLA Case No. – 30/2017-18) served to the principal titleholders by the DLAO office, Saraikela Kharsawan (dated 06.06.2019) in accordance to the as per requirement of Section 37(2) under RFCTLARR Act, 2013;
- Completion of the notarised affidavit for acceptance of land acquisition process as per the provision of Section 23 & 30 under RFCTLARR Act, 2013 and no objection on the land compensation amount by the private land owners (alive landowners and successors of the ancestral land ownership inherited from the deceased principal titleholders);
- Remittance of the agreed land compensation amount to the respective 17 PAPs through bank account transfer by the District Land Acquisition Division, District Collector, Saraikela Kharsawan district in two phases during July 2019 and November 2020;
- Land compensation utilization certificate (vide letter ref. no. 594/L.A. dated 19.11.2020) issued by the District Land Acquisition Division, District Collector, Saraikela Kharsawan district.

The land acquisition for the concerned private land parcels and corresponding land compensation payment for all seventeen (17) affected landowners/ persons (PAPs) has been completed and as per the utilization certificate issued by the DLAO office, Saraikela Kharsawan are outlined in the **Table 11.1** below:

Table 11.1 Land Compensation Payment Status

| Sl. No. | Khata No. | Plot No. | Land Area (in acres) | Name of land owners as per land record | Descendent of the affected land parcel, considered as Project Affected Person | Land Compensation Payment Status |

On issuance of the land compensation utilization certificate by the District Land Acquisition Division, District Collector, Saraikela Kharsawan district, a further effort has been made to secure self-declaration from the individual seventeen (17) PAPs confirming the receipt of land compensation payment from DLAO (refer **Appendix L** of this report).

The land compensation paid to the PAPs is based on the R&R scheme, as prepared by District Land Acquisition Division, Saraikela Kharsawan district that did not include the One Time Resettlement Allowance component as outlined in the Resettlement Framework for JPSIP. Payment of Onetime Resettlement Allowance to the identified 17 PAFs considered as part of the ARAP budget will be disbursed by JUSNL.

12. MONITORING AND EVALUATION

Monitoring and evaluation is an integral part of any project implementation in order to measure project performance and achieve project objectives. As per the mechanism stipulated under JhLARR Rules 2015, land acquisition officer of Saraikela-Kharsawan district has been monitoring land acquisition process including disbursement of land compensation payment to the project affected landowners. Also, Executive Engineer/ Senior Manager of JUSNL Chandil divisional office has been performing following activities towards monitoring of RAP implementation process:

- Liaisoning with the Land Acquisition Officer of Saraikela-Kharsawan district towards disbursement of compensation payment and liaisoning with project-affected landowners.
- Providing field level inputs for preparation of abbreviated Resettlement Action Plan implementation of Social Management Plan and Resettlement Plan;
- Coordinating and supervising with the EPC contractor for compliance with ESMP;
- Acting as the first point of contact for the grievance redress mechanism;
- Providing necessary input and submitting periodic progress report to the to the Environment and Social Officers at JPSIP PIU;
- Ensuring engagement and deployment of unskilled workers from the local community especially the project affected persons during GSS construction phase and facilitate in generating income for them.

APPENDIX M

MINUTES OF THE MEETING WITH DLRO SARAIKELA KHARSAWAN DISTRICT, DATED 15 JULY 2020

| | | | |
|---|--|-----------------|--|
| A | Project Title: | | PMC Support for Implementation of ESMF in Jharkhand UrjaSancharan Nigam Limited (JUSNL) Project |
| B | Basic details: | | |
| | Location: | | DC office, SaraikelaKarswan |
| | Date | | 15 July 2020 |
| C | Attended By | | |
| | Sr. | Name | Designation |
| | 1. | Ms. SarojTirkey | District Land Acquisition Officer (DLAO) |
| | 2. | Mr. C.K.Pandey | JUSNL,EE Chandil |
| | 3. | Ms. Jyoti DAS | PMC |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| D | Purpose of meeting: | | |
| | Meeting with DLAO regarding tree compensation existed on Chowka GSS land to landowners. | | |
| E | Key Points Discussed: | | |
| | <ul style="list-style-type: none"> A joint meeting conducted with DLAO SaraikelaKarswan in presence of ,EE JUSNL, Chandil and PMC regarding the matter on any compensation component considered for the trees existed on GSS site to the private landowners DLAO has informed that land transaction had been followed the rules as per Govt of Jharkhandpolicy. DLAO has informed that land acquisition for the Chowka GSS has been undertaken duly following all relevant government procedures as per the Jharkhand Land Acquisition Rule, 2015. DLAO has also explained that as per government procedure, induring these private land acquisitions, land revenue department identifies the land then check for basic requirements such as presence of any assets such as building structures, wells, trees, religious structures on the demarcated land parcel. If any, timber trees, fruit bearing trees, crops or any structure are existing on the identified land then only approaches to the forest department or agriculture department or concerned departments for valuation. As there were no such structures,fruit bearing trees or cropping practices were observed on this land identified for Chowka GSS, hence no additional compensation component has been considered andthe land transaction was duly completed in line with the requirements stipulated under Jharkhand Land Acquisition Rule, 2015. Compensation had been paid to landowners as per government procedure following provision of Jharkhand Land Acquisition Rule, 2015 and the land rights has been transferred to JUSNL on 31st January 2019. | | |
